DERF

ELECTRONICS CORPORATION

At DERF Electronics Corp, we go beyond simply providing competitively priced electronic components, and solving E&O problems. Our company is backed by 65 years of experience, contacts, reputation and commitment to quickly solve your most critical issues. Derf's "customer first" core values have been central to our success, and ensure that every customer receives exceptional service -- no matter how they choose to utilize our expertise. At DERF, we have implemented programs to track the inventories of thousands of distributors, manufacturers, and electronic trading companies worldwide as well as provide our clients 24/7 real-time live transaction details of all consigned inventories. In today's rapidly changing landscape, nothing less than Derf's expertise would suffice.
